1. SREENIDHI INTERNATIONAL SCHOOL MISSION AND VISION STATEMENT

Vision

To create internationally minded, socially responsible global citizens.

Mission

Sreenidhi International School cultivates an intellectually challenging environment through holistic and impactful learning, fostering innovation, diversity and student voice, choice and ownership of learning to create internationally minded individuals.

Guiding Statements

- a safe, supportive and legally compliant environment which encourages respect, responsibility, tolerance and compassion.
- a high-quality education that promotes the pursuit of academic excellence, innovation, ethical perspectives and lifelong learning.
- education to be a shared partnership of mutual cooperation amongst all members of the school community.
- an environment of cultural diversity that enhances our school community as well as our understanding of the world.
- a continuum of IB curriculum that is comprehensive to prepare students for the future.
- the ability to demonstrate international-mindedness and attributes of the IB Learner Profile.
- behaviour standards that promote a respectful and responsible school environment.
- an inclusiveness in holistic opportunities dependent on the school resources and availability.
- an understanding of a collective responsibility towards society.
- a commitment to enshrine agency across the community.

IB Mission Statement:

The IB aims to develop inquiring, knowledgeable, caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

IB learner profile

The aim of all IB programmes is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world.

As IB learners we strive to be:

INQUIRERS

We nurture our curiosity, developing skills for inquiry and research. We know how to learn independently and with others. We learn with enthusiasm and sustain our love of learning throughout life.

KNOWLEDGEABLE

We develop and use conceptual understanding, exploring knowledge across a range of disciplines. We engage with issues and ideas that have local and global significance.

THINKERS

We use critical and creative thinking skills to analyse and take responsible action on complex problems. We exercise initiative in making reasoned, ethical decisions.

COMMUNICATORS

We express ourselves confidently and creatively in more than one language and in many ways. We collaborate effectively, listening carefully to the perspectives of other individuals and groups.

PRINCIPLED

We act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of people everywhere. We take responsibility for our actions and their consequences.

OPEN-MINDED

We critically appreciate our own cultures and personal histories, as well as the values and traditions of others. We seek and evaluate a range of points of view, and we are willing to grow from the experience.

CARING

We show empathy, compassion and respect. We have a commitment to service, and we act to make a positive difference in the lives of others and in the world around us.

RISK-TAKERS

We approach uncertainty with forethought and determination; we work independently and cooperatively to explore new ideas and innovative strategies. We are resourceful and resilient in the face of challenges and change.

BALANCED

We understand the importance of balancing different aspects of our lives—intellectual, physical, and emotional—to achieve well-being for ourselves and others. We recognize our interdependence with other people and with the world in which we live.

REFLECTIVE

We thoughtfully consider the world and our own ideas and experience. We work to understand our strengths and weaknesses in order to support our learning and personal development.

The IB learner profile represents 10 attributes valued by IB World Schools. We believe these attributes, and others like them, can help individuals and groups become responsible members of local, national and global communities.

2. STATEMENT OF PHILOSOPHY

Every teacher at Sreenidhi International School is a language teacher and recognises the importance of language as a means of communication. It is a tool to connect the self to the external world through knowing, learning, thinking, reflecting and expression. Through language we appreciate the importance of culture, diversity, and sensitivity toward others, which in turn enhances one's personal growth and development, making the learner a global citizen.

3. LANGUAGE LEARNING: AN OVERVIEW

Sreenidhi International School promotes an additional language philosophy Whereby

- English is acquired in addition to home languages of the student
- For all learners, we offer a comprehensive programme through which they acquire skills and knowledge needed to access the regular curriculum
- We provide support to our students and their families to enable them to adjust to a new language, learning environment and culture
- We promote maintenance and enrichment of the home language by encouraging families to continue speaking, reading, and writing the language at home. We also recommend that families take advantage of the many home language instructional opportunities available in our community
- All aspects of our language programme require formal as well as ongoing informal assessments. These assessments are used to plan appropriate instruction and to evaluate student progress.
- Language learning at Sreenidhi International School will follow the philosophy, practices, strategies and assessment as laid-out in this policy.

SCHOOL LANGUAGE PROFILE

To compile the school language profile, the Sreenidhi International School identifies the following points: The diversity of language needs for all learners across the school. This should include information on the languages of teaching and learning, the languages of communication used in the school and outside the classroom, and the range and types of home language in the community. Medium of instruction- English (all subjects).

- a. **Inside the classrooms / home rooms- English.** However in the early years & primary classes the students use their home language to comprehend, read and express their understanding. The teachers too can avail the use of technology as well as print media (in student home language) to facilitate the understanding of a concept, or sharing their understanding. The students do have the opportunity to use their home language / host country language to demonstrate understanding during an assessment task.
- b. **Outside the classrooms / home rooms-** Students will be and are encouraged to communicate in the language that is comfortable to them. This will help us to create an environment, which will foster the development of the home language.

Languages learned/offered at all levels –

- PYP- French, Spanish & Hindi as additional languages
- MYP- French, Spanish & Hindi for Language Acquisition
- DP- French, Spanish, & Hindi for Language Acquisition
- CP-Hindi, French & Spanish for Language & Cultural Studies

Language of communication

English is the language of instruction and collaboration at Sreenidhi International School, with all students progressing on a continuum in the acquisition of academic English. Mother tongue supports student learning by assisting access to and of the conceptual understandings that drive the curriculum, and through deconstruction of meaning as required. Therefore, students are allowed and encouraged to use their mother tongue to access the curriculum and foster personal success.

* PYP1 - MYP5 students will follow the state-mandated Language - Telugu

Other language needs of the community.

1. **Interacting with auxiliary staff** - Most of the Auxiliary staff comes from local community. The mode of communication with them will generally be in Telugu.
2. **Interacting with visitors** - Visitors in school come with diverse language backgrounds. English will be used as the language of Communication. But we may also use other languages based on the needs and availability.
3. **Interacting with parents** - Most of the Communication with parents will be in English. The school will also communicate in Hindi and Telugu based on the need of the situation.

4. HOW DO STUDENTS CHOOSE AND PLAN FOR LANGUAGE COURSES

Primary Years Programme (PYP)

All students will learn subjects in the medium of instruction-English. All students will receive Telugu as a State Mandate (PYP 1- MYP5). Additional Language is offered from PYP1, students have to choose between 3 additional languages (Hindi, Spanish & French). The teaching & learning of additional languages revolve around the planning, which in turn is based on the Language scope & sequence. The importance of concept over content and application of language is more important in the curriculum. However, if a student exhibits higher applicability/ understanding / recall of the fundamentals of the language, then he / she needs to be challenged accordingly. The students listen, speak, read & write in the language. The Language of instruction is a part of the transdisciplinary programme of inquiry because we firmly believe that students learn language and learn about language through language. Students upon choosing the additional language at PYP1 will stay with the chosen language until the PYP5. They might switch to a new language in MYP1, however they are not encouraged to change and continue with the same language to develop proficiency in the chosen language. For new students there will be probationary one month to choose an additional language.

Middle Years Programme (MYP)

All students will learn subjects in the medium of instruction- English. All students will receive Telugu as a State Mandate (PYP 1- MYP5). The students will be offered three languages - Hindi, French and Spanish. These Languages will be offered in different phases. Phases are decided on the basis of baseline assessment and based on the discretion of the language teachers and Coordinator. The information about subject selection will be shared with the parents and students through group orientations and individual counseling. Students need to continue the same additional language in each year of the MYP.

Diploma Programme (DP)

All students will learn subjects in the medium of instruction - English. The students will be offered three Languages- Hindi, French, and Spanish. These Languages will be offered at different levels. Levels are decided on the basis of course studied in the previous year and at the discretion of the language teachers and Coordinator. The information about subject selection will be shared with the parents and students through group orientations and individual counseling.

Career-Related Policy (CP)

Language & Cultural Studies is one of the four compulsory components of the Career-related Programme (CP) core. Language and cultural studies ensures that all students have access to and are exposed to a language programme that will assist and further their understanding of the wider world. The ability to communicate in more than one language is essential to the IB's concept of an international education. This course at Sreenidhi encourages students to choose from Hindi, Spanish and French to meet their personal interest or support their future study. CP students are required to maintain and complete a language portfolio to document their learning activities and provide evidence of language engagement and development and meet the requirements of completion.

5. SPELLINGS & VOCABULARY PROTOCOLS AND PREFERRED BIBLIOGRAPHIC REFERRING STYLES & RULES

Age appropriate spellings and vocabulary protocols will be adhered to but importance will be given to ideas and thinking.

The teachers of Sreenidhi International School will guide their students in the rightful ways of acknowledging prior work of others when being cited or used as references within their coursework and assessments. This begins when students can understand the concepts of academic integrity and doing their own work. Students should normally follow the format provided by the Modern Language Association (MLA: www.mla.org). Proper techniques and examples are provided by subject teachers during class time, but the same is also accessible online. (Academic Honesty Policy)

6. CONNECTING LANGUAGE LEARNING & BELIEFS TO OTHER POLICIES IN SCHOOL

Admission policy- Sreenidhi International School will accept students at all levels of proficiency in English Language. All applicants will complete background information that indicates their language proficiency (reading, speaking, writing) in the medium of instruction (English), home language and additional language if different from their home language. The admissions department needs to notify/ inform/ share with the Coordinator, the details of the applicant and his / her language requirements for review. This information is then taken up with the faculty in charge of providing support to language learning in each grade level. For admissions into the Diploma Programme English Language and Critical thinking skills will be assessed in order to support the student's learning. For admissions into the Career-related Programme students will be evaluated to determine their passions in learning and suitability for the DP courses and CRS offered.

Assessment policy- Language learning follows distinct stages, students learning/ acquisition varies from individual to individual. Teachers will assess language skills - reading, speaking, writing, listening regularly and differentiating through guidance and extension if required. Assessments will provide information on language growth (English) and areas to work on. The support teachers in each grade level along with the Language teachers will provide this support. However the students can also express their understanding of a concept dealt within the classroom in their mother tongue/additional language. They will be assessed using different strategies and tools.

Library Resource Center Policy- Based on the language profile of the students in school, the library resource center will be equipped with the resources to support language learning through books, reading programmes, software, videos, dictionaries, magazines, journals and newspapers (in English and mother tongue). The resources will cater to the diversity of the school community.

Student Support Policy: A Student must not be regarded as having a learning difficulty solely because the language spoken at home is different from the language of the school. This educational support is designed to make sure the inclusion model is in position that these students get adjusted to the regular classroom instruction. A Learning Support teacher undertakes responsibilities such as identifying the needs of a student, planning a programme that suits the child, communicating the student's requirements with the regular classroom teacher and having a follow-up programme for students with their individual needs. SIS gives a lot of hope for children having various kinds of challenges such as Learning disabilities, slow learners, Asperger's Syndrome, Mild hearing Impairment, ADD/ ADHD, Communication and speech disorders of which can be dealt with in an inclusive set up with an appropriate planning.

7. PEDAGOGICAL ATTRIBUTES

Primary Years Programme (PYP)

Promote inquiry-based authentic language learning

Through language students share and take further what they know, what they experience as well as construct meaning. The students at Sreenidhi International school are involved in learning language, learning about language and learning through language. They listen and speak the language, look at how the language works and use it to share their understanding with the world. Students are encouraged to construct, think critically, and express themselves confidently in a language of their choice. They are empowered to not only master language skills but also to apply them effectively in real-world contexts, aligning with their individual interests and needs. The students are given opportunities to read books / texts, write, speak and present (using different medias) their thoughts & ideas as well as learning.

Focus on the transdisciplinary nature of language learning.

Language leads to inquiry and in an inquiry classroom (Homeroom or single subject) the teachers & students use language to research, share, present and appreciate learning. The school programme of inquiry looks at giving the students opportunities to exhibit, develop and use language. The students share their prior knowledge, research, reflections and present their understanding of the units through languages and in turn connect to how it works as well as further use it to express their understanding of new situations.

Incorporate the teaching and learning of language into the programme of inquiry.

Language learning is a developmental process. The school programme of inquiry gives scope for the strands of Language to be looked at, in the teaching & learning process- listening & speaking, viewing & presenting, reading and writing. These continuums are organized into 5 phases.

Provide for the teaching of additional languages at least from Grade 1.

The students have the opportunity to choose any one of the three additional Languages offered from Grade 1. The additional languages offered are Spanish, French & Hindi. The school appoints trained / qualified staff for teaching all the additional languages in the primary school. The pedagogy of the programme, the transdisciplinary connections as well as assessment philosophy is followed by these classes also. These teachers have access to all IB documents and are a part of school collaborative meetings.

Provides feedback to support learning.

Language (medium of instruction, mother tongue and additional Language) is a powerful tool for providing feedback to parents, students, teachers and administrators of the school. The students and teachers may choose to write, draw, use ICT, anecdotes or orally give as well as receive feedback for further learning or making adjustments in their teaching and learning process.

Middle Years Programme (MYP)

- Use language as a vehicle for thought, creativity, reflection, learning, self-expression, analysis and social interaction
- Develop the skills involved in listening, speaking, reading, writing, viewing and presenting in a variety of contexts

- Develop critical, creative and personal approaches to studying and analysing literary and nonliterary texts
- Engage with texts from different historical periods and a variety of cultures
- Explore and analyse aspects of personal, host and other cultures through literary and nonliterary texts
- Explore language through a variety of media and modes
- Develop a lifelong interest in reading.
- Apply linguistic and literary concepts and skills in a variety of authentic contexts.
- Understand the Interdisciplinary importance of Language

Diploma Programme (DP)

- Introduce students to a range of texts from different periods, styles and genres
- Develop in students the ability to engage in close, detailed analysis of individual texts and make relevant connections
- Develop the students' powers of expression, both in oral and written communication
- Encourage students to recognise the importance of the contexts in which texts are written and received
- Encourage, through the study of texts, an appreciation of the different perspectives of people from other cultures, and how these perspectives construct meaning.
- Encourage students to appreciate the formal, stylistic and aesthetic qualities of texts
- Promote in students an enjoyment of, and lifelong interest in, language and literature

Career-related Programme (CP)

- Enable students to understand and use the language they have studied in context
- Encourage an awareness and appreciation of the different perspectives of people from other cultures
- Provide students with a basis for further study, work and leisure through the use of an additional language
- Provide the opportunity for enjoyment, creativity and intellectual stimulation through knowledge of an additional language.
- Regardless of the level of linguistic proficiency they have when students begin the CP, The course is designed to accommodate all students and ensure they are exposed to languages other than their best language that will assist and further their understanding of the wider world.

8. STRATEGIES TO PROMOTE & SUPPORT LANGUAGE LEARNING AND DEVELOPMENT

- Use of English as the primary language of communication.
- Ensure that policies and procedures regarding the language acquisition are developed and implemented and are regularly reviewed.
- Provide funding, facilities, leadership, and resources for the successful implementation of the language policy.
- Hold all stakeholders of the school accountable for the effective implementation of the Language Policy.

- Attract and retain highly qualified and experienced administrators and teachers.
- Provide academic leadership for the school.
- Share responsibility for oversight, implementation and revision of the Language Policy and curriculum efforts.
- Support teachers in their delivery of instruction. Provide a variety of professional development opportunities to better enable teachers to be effective instructors of students with a range of language proficiencies.
- Promote an embedded Professional Development Model enabling collaboration concerning curriculum; instructional techniques; assessment and student progress.
- Observe teachers and provide constructive feedback, materials, planning time and staff development opportunities.
- Promote communication with parents concerning students' language development and provide translators when needed.
- Promote a co-curricular programme that encourages the use and development of the Language Policy.
- Provide extra teacher in each grade for language support and seek parent support where students need help in Language learning.
- Providing services of Special Educators and One-on-One teacher wherever required in specific cases.
